You may use these coordinates and not the street address: N 34° 43.261 W 083° 26.944 if the street address is leading you to the wrong spot. We do however recommend you print the directions below and use them as final directions to the inn.

Also, please note we are located on an unpaved road that is narrow in places and can be quite dusty and bumpy in the summer. The road has been here for over 100 years though, and is seldom muddy or treacherous. First time visitors are encouraged to arrive before dark if possible. We have made every effort to give you comprehensive directions here, but feel free to call us from your cell phone if you need to.
